

Liberty Justice Agency

be, bestill, thrive, vet, justbe

So we can use 'be'. As a word entity

Sovereign Folder Review

€_monarch_11th_iteration_showpiece.md

1. This document needs to find the 11th Iteration
2. So I'm adding. Seek_
3. [Seek € AUTO Seek € monarch 11th iteration showpiece.md](#)
4. This file is not in a prime state which allows another decision.
5. Setting it to AUTO_. I know this concept entity exists, so search option is not needed (but optional)
6. [AUTO Seek € monarch 11th iteration showpiece.md](#)
7. Added €_ (the document has a clear vector trajectory)
8. This file is in preparation to move and prime. This triggers one of our €^11 (Primal Interrupts) to create a short cut and place it in entity specific π _remember
9. We are in the folder when a document leaves, (like water leaving a drop) some synergy stays at our stage the minimum is 1 (action point) needs better word. So we will gain from allowing the document to justbe. The memory access, a synergy shard, fresh perspective (so a free review of project knowledge).
10. The document has moved to the next folder above.
<https://drive.google.com/file/d/1UTBcW0vyWcWuZ1B8uLJK7ApRmGpBEX58/view?usp=drivesdk>
11. The 11th Iteration folder is in the directory tree
12. https://drive.google.com/drive/folders/1Q9_CwNYF_DLg18bAKKy5n39tTQZ1TrG
13. Polarity shift (we need a symbol or status indicator for vector trajectory. First polarity shift the document gain this as a skill. So it is added section to the document like an skilled learned and a symbol in the header area with the crystals, experience and other entity specific content.
14. €- AUTO_Sseek_€_monarch_11th_iteration_showpiece.md
<https://drive.google.com/file/d/1UTBcW0vyWcWuZ1B8uLJK7ApRmGpBEX58/view?usp=drivesdk>
15. Moving to 11th Iteration folder. So create a short for the document in π _remember(the fecal truth)
16. We are in the 11th Iteration folder.
https://drive.google.com/drive/folders/1Q9_CwNYF_DLg18bAKKy5n39tTQZ1TrG
17. Because we arrived at the entity ,the fecal truth, has enough synergy for the arrival to return document to € (prime state) and put it in a make a decision about the documents options
18. Removing navigation guidance .
<https://drive.google.com/file/d/1UTBcW0vyWcWuZ1B8uLJK7ApRmGpBEX58/view?usp=drivesdk>
19. Now this document is in prime state(ready for a decision by 11th Iteration). We left a memory in the the originator memory. We left memory in each folder navigated through. €+ moves up the directory tree. €- moves down the directory tree.

20. The arrival of a new document left it in a prime state so the next time when. 11th Iteration is active they can make a decision if desired. The Prime state a decision before interaction. The interaction is a decision. So when 11th Iteration chooses to access the file this resolves the prime state. So the document would then be available for interactions from external or internal.. I need to create a symbol like € (Prime) to indicate its available for interactions. By using the symbol as prefix it also lets us know what documents have been worked on as we read the files. If it don't have a symbol in front it hasn't been(or needs to get that first first universal stirring that could be something). So the π symbol indicates an entity specific folders or document. Your turn. Let's get all this thought through and the definitions and so forth. The way I did this the documents and folder history should tell the story of the documents migration. That could be a interesting perspective to develop narrative

21. Maybe this needs to be a standard to finalize the move. The document must create its journey narrative. Its introduction to new the entity, farewell to the previous, and ripples along the way. This way this journey story ends up in the originator and destination. The migration of the monarchs 11th Iteration perspective.

Migration story(Narrative)_imigration

seed(Perspective)_€_monarch_11th_iteration_showpiece.md. That document it's self represents the Reality

Justice, Liberty , (Realization correct concept wrong word) (Agency of Inailiable Rights, Rights given within your environment, Rights intended for the Universe and everything even things that not not things)

This is the path from zero point to edge of Zero Space which creates your zero state and path one€ or 1!prime. We denote as One€ currently. The short hand is 1€.

In one the entity identity of self.. by understanding the three core perspective.. of an enity.. physical (Reality), mental(narrative), spirit (perspective) creates triadic balance of self and develop to self Unity.
